Meet Dr. Chmaitelli!

Dr. C with "Jersey"

Dr. Stephen Chmaitelli (or Dr. C) has been helping pets since he graduated from Texas A&M in 2000. He found his love for veterinary medicine working on his grandfather's ranch as a child.

Dr. Chmaitelli worked with large animals and even African exotics before deciding to open his first small animal practice in East Texas. As a Houston native, he eventually moved back home and founded Garden Oaks Veterinary Clinic.

Dr. Chmaitelli has a passion for diagnostics and finding the "why" in each pet's symptoms. He also believes strongly in partnering with pet parents so they can make educated decisions for their pet's lifetime of health and wellness.

Come see the GOVC difference!

At Garden Oaks Veterinary Clinic, we believe that no two pets are the same, but that they ALL deserve exceptional care. That's why we give thorough physical examinations, even for routine wellness visits, to make sure nothing is overlooked, and we tailor treatment to each dog and cat's needs.

We also want to make sure that you as an owner feel "heard", and that we take the time to answer any questions or concerns that you have. Whether it's your kitten's first visit or you are saying goodbye to your senior dog, we are here to go through the journey with you.

We only carry the products that we give our own pets and that we believe are the safest. From preventives to prescription food, we allow only the best for our patients.

New clients always welcome, and new specials every month!
